SIR:

On September 1, 2010, the undersigned representative of the Applicants telephoned the Examiner to request an update as to the status of this application, for which an Amendment After Final was filed on June 21, 2010, which was forwarded to the Examiner on June 23, 2010. No written response to that After Final Response has been received from the Examiner. In the telephone interview on September 1, 2010, the Examiner stated that she had reviewed the Amendment, and still needed to do updated After Final searching, but the result would either be that the application is allowed or prosecution would re-opened.

The date on which this Interview Summary is being filed is the end of the six month period for responding to the Final Rejection dated April 14, 2010. The undersigned representative of the Applicant has requested that the Examiner prepare an Interview Summary for the aforementioned telephone interview that took place on September 1, 2010, in order to have a document in the file that can be relied on to preclude any contention that the application has been abandoned, in

view of the expiration of the six month period for response. The Examiner has not done so, and therefore this Interview Summary is being filed by the Applicant.
